

Dear Ian,

We are writing to thank you for all your professional hard work decorating the inside and outside of our new home in the New forest.

Thank you for your patience with the multicolored schemes in most of the rooms, and the flawless wallpapering in the others. The wallpaper in the lounge in particular looks superb and your care and attention to detail has made the room look very elegant. We are also particularly grateful for the efficient manner in which you made good and decorated all the windows after they were replaced - we do not think we would have ever managed on our own. The work you did on the rendered elevations has also improved the appearance of the house no end.

Good luck with your future in Canada and any time you are 'passing' we are sure we can find you a few more decorating jobs if you would like.

As we have said before we would highly recommend your services to anyone else, especially as you did such a good job on our previous home as well. Over the last 8 years of working with you we have always found your work to be of a very consistent and high standard - for which we are grateful.

Wishing you every success in the future.

Kind regards,

Alison & David Wagg
